# A QUICK GUIDE TO WOLFGANG KAEHLER PHOTOGRAPHY

## STOCK LISTS AND UPDATES:

If you are on our Active Mailing List, once a year we will send you our updated Stock List, which lists the subjects we have in our file. During the year we will send our updates by e-mail which will inform you about our newest coverage and upcoming trips. Please keep us updated any time you change your email address.

## PHOTO SUBMISSIONS

When requesting photographs, please be as specific as possible. Usually we will send the photos out the same day that we receive your request. Every submission is accompanied by a computerized Delivery Memo, which lists all the slide numbers, captions, and terms and conditions. If you see an image you like and you need a different composition, please give us a call. Many times we have different versions of an image in our file.

## ONLINE SEARCHABLE DATABASE:

We invite you to visit our online searchable database, which presently contains over 27,000 of our best images. New images are added frequently, so please keep checking. If you don't find what you're looking for please contact us. Each thumbnail found on the site has our photo ID number displayed, and once you've registered you will be able to enlarge the image and view the caption displayed directly below the image. Using our multiple key word search you will be able to build a lightbox for selection, or contact us with your requirements and we'll build one for you. There are many advantages to the new database, one of which is that you can print out your selection as Vis Sheets or as an enlarged, single comp photo. Once you've selected an image(s) for use, contact us and we can send you a drum quality scan on a CD or you can download it. If you need the image in a slide format, in most cases we have a similar/exact image in our files that we can send you.

## INVOICING AND PRICING:

When you request an invoice, please give us all the information you'd like to see on the invoice, such as the P.O. number, rights, etc. For invoicing purposes we need to know the slide number and how the image is being used. For pricing, we need to know exactly which kind of rights you require, press runs, image size, etc. In advertising especially, **no price is confirmed until you receive a written price quote for the exact usage.**
